

Please note that I spoke with Andrea Needles, Report Analyst, and left a voicemail for Tech. Support re the Warning Messages I have receive on our current January 31 Year End filing, covering the period of 7/1/07 - 12/31/07 re Field Name #'s 13, 15, 16, 17, 18, 27, 28, 29 & 34. I have tried filling out these fields and I still received Warning Messages. Andrea Needles further advised me that the FEC is working out the bugs re the new software version 6.1.1.1. Tech Support has not gotten back to me as I realize they are very busy trying to handle the many calls they are receivinig due to these warning messages. Andrea Needles told me to go ahead and file with these Warning Messages, as it is important that the filing be in on time.
